The Product Goal

Inspecting a potentially releasable Increment

When the Definition of Done is met...

The Test team can start acceptance testing

The Daily Scrum starts when...

Preferably at 9:00 in the morning

Three amigos: Tester, User Experience and Development

The Artefacts in Scrum are ...

Impediment Backlog, Product Backlog and Sprint Backlog

The Scrum Team

The Sprint Goal

The Sprint Backlog

The Sprint Goal

Events in Scrum are primarily designed for doing what?

Responding to change over following a plan

When the Definition of Done is met...

An Increment is born & ready for release

The Naily

The Daily Scrum starts when...

When the Scrum Masters says to start

The empirical Scrum pillars are:

Courage, Commitment and Respect

The Artefacts in Scrum are ...

Product Backlog, Sprint Backlog and Increment

Who is accountable for creating the DOD?

The Scrum Master

The commitment for the Product Backlog is...

The Definition of Done

What's adapted during the Sprint Review?

The Sprint Goal

The Sprint Backlog

Emphasize the importance of the Scrum theory and rules

When the Definition of Done is met...

The product can be moved to operations for maintenance

The Daily Scrum starts when...

Everyday at the same time

Transparency, Inspection and Adaptation

Scrum are ...

Product Backlog,
Sprint Backlog and
Product Documentation

The Developers

The Product Goal

What's adapted during the Sprint Review?

The Increment

The Increment

Inspecting and possibly adapting Scrum Artifacts

When the Definition of Done is met...

The customer gets an increase in value

The Daily Scrum starts when...

When all developers have joined

Customer feedback and team improvement

The Artefacts in Scrum are ...

Sprint Backlog,
Project Plan and
Product Documentation

DOD?

Product Owner

The Customer value

What's adapted during the Sprint Review?
